

# Table of Contents (Volume 4)

July 2, 2022

1. **Scattering of surface waves by small undulation on a porous seabed: a Fourier transform approach** (1–7)  
S. N. Bora, S. C. Martha, and A. Chakrabarti
2. **The Banzhaf power index for fuzzy bi-cooperative games with fuzzy bi-coalitions** (9–24)  
Pranjal Sarmah, N. R. Das, and P. Das
3. **Existence theorems and necessary conditions for general formulation of linear bounded phase coordinate control problems in 2-Banach space** (25–36)  
Utpalendu Adak and Biswajit Sarkar
4.  **$n$ -injective hull of strictly FGD  $N$ -groups** (37–50)  
Kalpana Misra
5. **Application of Possibility Theory in the Fuzzy  $ARIMA(1, 1)$  Process** (51–59)  
Pranita Goswami
6. **Paley-Wiener type theorems for the Hankel type transformation** (61–67)  
B. B. Waphare
7. **Inheritance of meet-independence** (69–83)  
Jonali Choudhury
8. **Some identities of Rogers-Ramanujan type and their combinatorial interpretation** (85–98)  
P. Rajkhowa and Shaikh Fokor Uddin Ali Ahmed
